

Doctor Endorsed

SANDRA CURET, MD is Director of Ambulatory Services at a major hospital in Pennsylvania. She is a board-certified Obstetrician/Gynecologist with over 15 years of clinical experience. Based on that experience, Dr. Curet observed the need for drug-free alternative treatments for hemorrhoid sufferers. As a consultant to Anuleaf AD, Dr. Curet offers insight and expertise on the benefits and risks of current hemorrhoid treatments.

"I have given the Anuleaf adhesive device to my patients and it has provided significant relief for them. I recommend this product to all women who are expecting or have given birth and are suffering from hemorrhoid discomfort, as well as to others who are looking for a drug-free alternative to hemorrhoid management."
