

Questionnaire

How severe are your hemorrhoids?

Hemorrhoids are classified as Grades 1 through Grade 4, depending on your symptoms. This system helps doctors diagnose the stage your hemorrhoids are in, and decide which treatment is appropriate for you.

The following questions can help you determine the severity of your hemorrhoid condition.

If you answer "Yes", your hemorrhoid grade is:

- Do your hemorrhoids bleed?..... Grade 1
- Do your hemorrhoids protrude with bowel movements and reduce spontaneously?.... Grade 2
- Do your hemorrhoids protrude and remain protruded unless reversed manually?..... Grade 3
- Are your hemorrhoids prolapsed and cannot be reversed?..... Grade 4

Important : This information is not intended to diagnose any condition. It is Intended to be an educational tool. Hemorrhoids may be mistaken for other, more serious anal conditions. Please consult your physician if you have any symptoms that you believe could be hemorrhoids.
